CAREER OBJECTIVE

Looking for a challenging position in an industry where I can utilize my knowledge, abilities, and skills that I have gained during my academic life and my experience to growth of my career. Motivated and detail-oriented fresher with a strong foundation in Java. Passionate about problem- solving and eager to learn new technologies. Looking for an opportunity to apply my skills in a dynamic environment and grow as a Java developer.

PROJECT

Vestige Marketing System (E-commerce Website)

Tech Stack: java, (JSP- servlets), MySQL Database , Apache Tomcat.

- Developed a fully functional multi-level marketing (MLM) e-commerce platform.
- Implemented features like admin dashboard, product management (add/update/delete), category-based search, and image management.
- Focused on clean UI and a user-friendly shopping experience.

Quiz Competition

Tech Stack: Core java ,JDBC, MySQL

- Built a quiz platform with student login/registration and participation features.
- Developed teacher dashboard for managing questions and viewing results.
- Handled quiz categories, score tracking, and result display in a console UI.

ATM Management System

Tech Stack: JAVA (JSP-Servlet), MySQL database

- The goal of the project is to maintain all activities of ATM System. ATM, or automated teller machine, is a machine that lets you get cash from your bank account without visiting a teller. Some ATMs are simple cash dispensers, while others allow a variety of transactions such as check deposits, balance transfers, and bill payments.
- **Project Purpose**: To save the time for banking transactions and save Paperwork.
- **Transactions**- Withdraw Money, Transfer Money, Balance check, Mini statement.
